

Microsoft

Windows Embedded operating systems—Windows Embedded CE and Windows XP Embedded—provide the technology, tools, and resources to help get devices to market faster. Windows CE is built from the ground up and is ideal for small footprint devices, while Windows XP Embedded is a component-based version of the Windows operating system. Windows Embedded for point-of-service is a standard, retail-optimized operating system platform designed for retail point-of-service systems. Regardless of which operating system designers ultimately choose, using a Windows Embedded operating system provides important benefits for the business.

Features ▶

- Easy-to-use development tools
- Component-based or fully-configured platforms
- Device management and servicing features
- Use of Microsoft's managed application tools, including the extensive debugging capabilities of Visual Studio® 2005, Microsoft® .NET, .NET Compact Framework, or native Win32® APIs

Benefits ▶

- Faster time-to-market
- Low up-front cost with 120- to 180-day evals
- Generate greater end-user demand with Microsoft's global brand recognition
- Readily available support
- Shared Windows Embedded CE source code

Applications ▶

- CE.net
- XP Embedded
- XP Pro with Embedded restrictions
- Windows Embedded for point-of-sale (WEPOS)
- Windows server

Product Specifications ▶

| Operating System | Base Part Number | Description |
|---|------------------|--|
| XP Embedded Target Tool Kit | G81-00065 | Windows XP Embedded Target Designer Eng w/SP2 and w/FP 2007 (NO CLA required) |
| XP Embedded | G80-00005 | Windows XP Embedded Runtime |
| XPE WEPOS | ZY8-00011 | Microsoft® Windows® Embedded for Point-of-Service 1.0 |
| XPE WEPOS RUNTIME | ZY8-00047 | Windows XPe Solutions 1.14 EMB ESD OEI WEPOS Runtime |
| XP Pro w/ Embedded Restrictions | G82-00027 | Windows XP Professional for Embedded Systems (1-2 CPU) |
| XP Pro x64bit w/ Embedded Restrictions | 31N-00002 | Windows XP Professional x64-bit edition for Embedded Systems (1-2 CPU) |
| Win Vista Ultimate | 4CJ-00006 | Win Vista Ultimate Embed x32/64 EMB ESD OEI 1-2CPU |
| Win Vista Business | 4CK-00018 | Win Vista Business Embed x32/64 EMB ESD OEI 1-2CPU |
| CE 6.0 TOOLKIT | 814-00307 | WinCE Platform Builder 6.0 EMB English ESD OEI DVD (NO CLA required) |
| CE 6.0 | 884-00341 | Windows CE 6.0 EMB ESD OEI Pro Runtime |
| CE 5.0 TOOLKIT | 814-00290 | WinCE Platform Builder 5.0 CD (NO CLA required) |
| CE 5.0 TOOLKIT BUNDLE | 814-00298 | WinCE Platform Builder 5.0 EmbedSys English ESD OEI CD w/VS.NET Ent Dev |
