

Power rocker switches

Power Rocker Switches

The power rocker switches are a full line of snap-in, panel-mounted switches available in current ratings from 7A to 20A. These switches are available in seven different panel cut-out sizes, offering the customer a wide variety of size options. The new 20A PRC series switches are rated IP66, providing a dust-tight and water-resistant seal.

Features ▶

- Available in SPST, SPDT, DPST, and DPDT functions
- Solder lug, screw, or quick connect terminals
- Dual-color rockers and illuminated options available
- Waterproof cover available for PRA-size switches
- UL-recognized to U.S. and Canadian standards

Benefits ▶

- Easy snap-in mounting
- Offers a cost-competitive solution
- Custom markings available
- RoHS compliant

Applications ▶

- HVAC units
- Industrial air cleaners
- Packaging equipment
- Vending machines
- Food processing equipment
